LEAVENWORTH, K. T., Aug. 20, 1857.

Mr. Editoria:—Believing that your numerous readers would be pleased to hear now and then from "Bleeding Kansas," I embrace the present opportunity of furnishing you with a few items; but in doing so, I assure you in advance that I have no border ruffian outrages or abolition villaining to average. I propose to confine myself.

ocrats lived in Maine as in Georgia, and as good in Ohio as in Tennessee.

He was emphatically in favor of submitting the Constitution, which will be framed in September next, at Lecompton, to the people for ratification. As to who were the people, he did not assume the province of determining, but thought the Convention should leave this question to be settled by the territorial laws, which prescribe a residence of six months as one of the qualificaresidence of six months as one of the qualifica-tions of a voter. He had heard with astonish-ment that there were men professing to be Dem-ocrats, who were opposed to the proposed sub-mission. He was prepared to tell all such men that, as one who flattered himself that he was somewhat posted upon this question, it would be unparalleled impudence to ask members of Con-gress, who were pledged to the doctrine of allowing the people to govern themselves in their own way, to stultify themselves by voting for a Constitution that they were not satisfied expressed the kansas. He warned the members of that Convention that a failure to refer that Constitution to the people for ratification would not meet with the sanction of the party in Kansas; and he pledged himself that in such an event he would

sing the Constitution and petitioning Congress to reject it.

He endorsed Governor Walker in all his pressed an abiding faith that the Governor would yet solve the great problem of self-government in Kansas, amicably, equitably and to the entire satisfaction of all rational men.

He spoke in scathing terms of those Know Nothing emissaries who have sought and are seeking to lead the Democracy of Kansas; particularizing those who, without eyer having had "one drop of Democratic blood in their veins," had even gone so far in their fanaticism as to ask the people of Missouri to come over and vote at an October election. He knew them well, and the multives that actuated them. After selling out to the Diack Republicans of Kansas for money, they sought to reinstate themselves in the good graces of the Missourians by just such contemptible humburgery as Such men were entirely unauthorized, and all their forts in this regard will be "Lova"s Laber Lost". So sane person believed

have no border ruffian outrages or abolition villainies to expose. I propose to confine myself principally to informing you of the progress of true, National, bona fide Indiana Democracy in this Territory.

At a Democratic meeting held at Osawkee, K. T., on the 10th of August, 1857, Judge Rush Elmore was called to the chair, and Pascal S. Parks, late of Indiana, and Wm. J. Preston, late of Virginia, were appointed Secretaries.

After a very appropriate explanation of the object of the meeting, a committee, consisting of Wilson Shannon, J. W. Martin, W. H. Tebbs, W. F. Dyer, J. H. St. Matthew, D. D. Barnes, S. B. Garrett, R. S. Stevens, Hugh Cameron, D. Vanderslice and J. A. Haldeman, was appointed to draft resolutions expressive of the object of the meeting.

meeting.

During the retirement of the committee, J. W. Whitfield was called for, and responded in a few well-timed and spirited remarks. He said that his position and his duties now were not of a political character; but he always felt it his duty, when called upon by his fellow citizens, to give his opinion upon any public questions fully, frankly and fearlessly. He was a Democrat first, last and all the time. He was, also, a pro-slavery man; but didn't hold that individual likes or dislikes upon the slavery question was any test of his Democracy. He thought that as good Democrats lived in Maine as in Georgia, and as good in Ohio as in Tennessee.

At the conclusion of the General, he following preamble and resolutions;
WHEREAS, the time is approaching when, in accordance with the provisions of the organic act, the people of this Territory will be called upon to exercise the highest privilege of freemen in the selection of a Territorial Legislature, and of a Delegate to represent them in Congress:

DAILY SENTINEL

Saturday Merming, August 29, 1857.

Bemocratic Meeting at Columbus Barthelemew County.

We are requested to state that by special in

ernor of this Territory, we recognize an able and sagacious Statesman, whose ability and patriotism conceded on all sides, in that memorable era of conceded on all sides, in that memorable era of our history when he encountered as adversaries such intellectual giants as Clay and Webster, cannot be questioned by the pigmies of this generation; that our thanks are due the President for the honor conferred upon this Territory in the selection of such a man as its executive ruler; such a selection evincing on his pert an appreciation of the difficulties attending the solution of the great problem of self-government in this Territory, and at the same time a paternal solicitude for its welfare—that in the policy indicated in the Inaugural Address of Gov. Walker we discern a strict adherence to the principles of the mof rights and privileges common to all others. discern a strict adherence to the principles of the Nebraska act and of true National Democracy; webraska act and of true National Demoeracy; and that in accordance with those principles, and for the reasons assigned by the Governor, the constitution to be framed by the convention soon to assemble, should be submitted to the people; and that as Democrats we believe that any constitution not so submitted, "will be and ought to be rejected by Congress."

6. Resolved, That the condemnation of Governor Walker by the extremists of both sections.

ernor Walker by the extremists of both sections, men living thousands of miles away, is the best of evidence of the wisdom and justice of his policy, and that we say to all such, "hands off, gentlemen, Kansas is our's; in due time she will ask admittance into the Union with a republican form of Government; until then, let us manage our own affairs, undisturbed by all outside interference."

The resolutions, which were read by Mr. Garrett in a clear distinct voice, elicited much applause and were adopted unanimously.

Judge E. O. Perrin, late of Brooklyn, N. Y.,

being loudly called for, mounted the rostrum and responded in his usual felicitous style. He most heartily endorsed the resolutions which had just been read, and although comparatively a stranger to the country, to his audience and to the Democracy, yet he could not withhold his admiration and approbation of the party whose members adopted such a platform as the one just submitted by the committee. He most heartily agreed with the gentleman who had preceded him in his eulogy upon Gov. Walker and the policy he had adopted for the pacification of Kansas. He painted in vivid colors the dangerous consequences of keeping the wounds of bleeding Kansas open to be lacerated anew, during another Presidential election, and he besought every lover of Kansas and his common country to lend his exertions in ushbeing loudly called for, mounted the rostrum and responded in his usual felicitous style. He most his common country to lend his exertions in ush-ering the Territory into the Union as a State as speedily as possible.

He bitterly rebuked Mr. Keitt, of South Caro-

lina, and his southern co-agitators, who, he re-marked, had joined their "howls" to the Black marked, had joined their "howis" to the Biack Republican "shrieks" of the North against Gov. Walker and his course in Kansas. He was proud to say that the Governor was only strengthened in his policy by the opposition of these sectional-

Col. Samuel B. Garrett, late of Indiana, being called upon, responded in a neat and pithy speech. Having introduced, he, of course, endorsed the resolutions of the committee, and was proud to hear those glorious principles of the National Democratic party, which were advocated and revered in every section of the Union, reiterated upon the soil of Kansas. Although he was a stranger, in a strange land, yet he felt that he was among his friends when such doctrines were enunciated. He had seen the struggle and final passage of the Kansas-Nebraska bill in Congress, and like many of its friends felt some doubt as to its immediate practical success. He had witnessed with alarm its repeated infractions in this Territory, by its professed friends as well as avowed enemies; but he believed that that time was passed. Already he saw the dawn of a more glopassed. Already he saw the dawn of a more gloeverywhere upon their triumph.

Like those who had preceded him, he fully en-

dorsed Gov. Walker's policy and spoke in highly laudatory terms of the man, the patriot and the statesman. He wanted no better evidence that statesman. He wanted no better evidence that islands. From this it will appear that the Cana-He believed that under the benign influence of popular sovereignty, as equitably administered by Gov. Walker, the time was not far distant, when blooming as a garden and blossom. distant, when blooming as a garden and blossoming as a rose, with peace, contentment and happiness as the distinguishing characteristics of her people, Kansas would take her place in the great should wend their way back to their masters to sisterhood and add another glorious star to the national constellation. Mr. Garrett, although a young man and comparatively a stranger, made a deep and lasting impression upon his audience, and his chaste and cloquent remarks found a response in every heart.

antil such a party, with Gov. Walker as the nuantil such a party, with Gov. Walker as in the fluck Re-cleus, shall be formed, as will make Black Re-publicans tremble in their boots. We may be upon the character of the organic act under which overpowered for a time-fanaticism may carry everything before it for a twelve-month; but then a reckoning commences, and woe be to those scoundrels who have embroiled the people of that incipient commonwealth again and again in civil strife, for they shall feel the vengeance of the

people.

During the sales at Osawkee several political discussions took place. Such as Indigestion, Acidity of the Stomach, Cholicky Pain,

Neuralgic Affections, it has in numerous instances proved
highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly
scientific principles, after the manner of the celebrated Helland Prof. Boerhave. Because of its great success in most
of the European States, its introduction into the U. States
was intended more especially for those of our fatherland
scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it
to the American public, knowing that its truly wonderful
medical virtues must be acknowledged.

It is particularly recommended to those persons whose
constitutions may have been impaired by the continuous use
of ardent spirits, or other forms of dissipation. Generally
instantaneous in effect, it finds its way directly to the seato
life, thrilling and quickening every nerve, raising the drooping spirits, and, in fact, infusing new health and vigor in the
system.

painfel, is the only article ever brought before the public that will do its work perrectly in from three to twenty minutes—has been used by thousands and pronounced to be the best remedy ever discovered.

This Oil acts on the system with electricity—is of pure vegetable preparation, Not the slightest danger of applying it outwardly or inwardly. It at once gives a permanent cure—in most cases from ten to twenty minutes.

The best-physiologists of Europe have discovered that all organic derangement of the animal system is the effect of an obstruction of the physico-electric fluid in the organ diseased. A skillful application of this Oil puts in immediate motion the nerve fluid, and the cure is at once accomplished. No bleedings—no vomiting, purging, or blistering is resorted to.

For the Sentinel Indianapolis Manufactures.

My brief communication in the Sentinel of the other day, touching a brass foundery and finishing shop, has had a part of its desired effect. I was aware of the existence of the brass foundery and machine shop of Messrs. Davis & Co., having several times visited it. But I had never seen it noticed in the press, and I thought it was little known. It is now well advertised. By the by, I notice some of the papers of other cities in this State make up, each week, sometimes columns of not refrain from tendering our thanks to Colone Hall and his gentlemanly clerks, for the good local matter consisting almost entirely of notices cheer and atte local matter consisting almost entirely of notices cheer and attentions bestowed upon their guests. of all the places of business in the city, whether Success to the "Palmer," to Col. The papers make it pay. Might not

But this is away from the point. Do we not need more than one brass shop here? Will not two, like two merchants, two lawyers, in a place, flourish better than one? It is most certainly true. And as Messrs. Davis & Co., have prospered so well; they have furnished the best argument in the world to show that we were right in calling upon our own capitalists and real estate holders to invest in manufacturing establishments. They can now have no excuse. Put up more manufacturing establishments. Each new one tends to i...crease the business of all the others. SHOWING FAITH BY WORKS.

Fig. 13 MILL is offered to the 'public as the only continuous self-feeding and discharging Hominy Mill in use. It is emphatically a HULLING mechine (not crushing) and feeds, bulls, cleans, and discharges the grain in the most perfect manner by its own operation, the grain being fed into the mill by the ordinary hopper and shoe, similar to feeding burr stones, and requiring about the same attention in running it. It takes but little power, there being but a small quantity of grain in the mill at a time, and the speed being only about 600 revolutions per minute. It will make from 50 to 75 bushels of HOMINY, ready for market, per day (10 hours.)

This mill has been thoroughly tested during the past season, and will do just what we represent. For proof, which, call and see it in operation at the Portable Grain Mill (old City Foundry,) where we will be happy to explain and exhibit it.
